

Proposed Spend Pupil Premium

In 2017-18 our Pupil Premium is directed according to the research documented in the Oxfordshire School Improvement document. Actions have been targeted in each of the 5 areas where on average disadvantaged children struggle.

1. Pupils have less home support for their learning

- Implement more guided home learning opportunities for these children over the summer. Tasks were individualised and easily manageable for children with limited support. Rewards and feedback were used to maximise the effect.
- Implement whole family support in families with low literacy levels so that older children help support younger children's learning

2. Pupils have weaker language and communication skills

- Provide guided opportunities in pastoral groups to improve communication and social skills
- Targeted EAL support for non-English speakers
- Provide Breakfast Club and After School Club to support peer-play

3. Pupils are more likely to have significant difficulties in basic numeracy and literacy skills

- Provide targeted interventions for Phonics and handwriting
- Provide 1:1 tuition after school with teacher or HLTA (one hour per week)
- Increase the number of Maths sets in KS2 so that more children learn in a small group (3 classes in a 2-form entry school)
- Provide a teacher to lead teach small focus groups every week for 2 mornings. These groups are changed every small term.
- Provide extra TA support for lower ability Maths set in Y2

4. Pupils experience more frequent behaviour difficulties

- Implement close supervision by TA of children struggling to modify their behaviour, both in class and on the playground
- Operate a system which offers children struggling at play/lunchtime the chance to play inside with teacher supervision
- Ensure that senior member of staff is available in a fixed place every play and lunchtime so children and adults know how to access help if they are finding it difficult to control their behaviour
- Provide a play leader at lunchtimes to teach children appropriate and safe games to play
- Offer pastoral support to these children to give them the skills to modify their behaviour

5. Pupils are less likely to believe they can control events that affect them

- Provide appealing toys and games (e.g. DS, Huddle's, Lego, Laptops) for those children who struggle at play/lunch time so that they feel encouraged to make the right choices, i.e. opt to stay in if they know they are struggling.

Sonning Common Primary School
Respect ~ Truth ~ Kindness ~ Politeness ~ Doing-your-best

- Offer pastoral support to these children to give them the confidence to control more of the events and their reactions to them
- Provide additional TA support for close supervision in less structured times of the day where these children often find themselves in difficulties

6. Pupils are less likely to experience a wide variety of experiences and activities

- Residential trips and appropriate kit
- Other trips and visits
- Swimming lessons and 1:1 swimming tuition with a teacher before school
- Music lessons
- Uniform

This report will be reviewed when the end of year results have been released internally. The updated report will then be published on the school's web site by the start of the following term by September 2018.
