

## **Disclaimer**

Some ingredients and/or materials used might cause allergic reactions or health problems. You should ensure that you are fully aware of the allergies and health conditions of those taking part. If you have any concerns about your own or somebody else's health or wellbeing, always speak to a qualified health professional. Activities listed within the resource should always be supervised by an appropriate adult. Children should be supervised when using sharp items such as scissors or other tools. Please make sure you are aware that children may put craft items into their mouths, and that they should wash their hands afterwards. By using this resource, you acknowledge that it is the responsibility of supervising adults to ensure the safety of children in their care and that we will accept no liability as a result of the activity.

# Milk Bottle Watering Can

## You will need:

- Empty plastic milk bottle
- Wooden skewer or drawing pin
- Coloured marker pens or acrylic paint

1. Make sure your plastic milk bottle is clean and dry, and remove any labels.
2. With a grown-up's help, push the wooden skewer or drawing pin into the lid on the bottle to make some holes. This is where the water will come out!
3. Use your skewer or drawing pin to poke one hole in the handle of the bottle. This will allow the air out.
4. Using the coloured marker pens or paint, decorate your bottle however you like. If you use paint, remember to give it plenty of time to dry after!
5. Fill your bottle with water and replace the lid.
6. Now, go and water some thirsty plants!
