

Yoghurt Pot Frog Challenge

Can you create a wide-mouthed frog using old yoghurt cartons?

You will need:

- Two small yoghurt pots
- Green tissue paper
- Pink, green and red card
- Googly eyes
- White glue (such as PVA)
- Sticky tape
- Black felt-tip pen

What To Do:

1

Use the white glue to stick pieces of green tissue paper to the outside of the yoghurt pots. Do this until they are completely covered, then leave to dry.

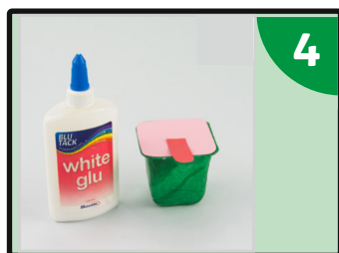

2

Now work on the bottom part of the frog. Cut out a square of pink card that is slightly smaller than the rim of the yoghurt pot. Also cut out a tongue shape from the red card and two frog feet from the green card.

3

Cover the edges of the yogurt pot top with glue and stick on the square of pink card, then leave to dry.

4

Stick the tongue onto the pink card so that it sticks out over the edge of the pot.

5

Next add the feet to the bottom of the pot, sticking them on using glue. Leave them to dry.

6

Then work on the yoghurt pot that will form the top of the frog. First turn the yoghurt pot upside down, stick googly eyes on and then add some nostrils using the black felt-tip pen.

Finally, using sticky tape, join the two pots together along the back edge. This should create a hinge for the mouth. Then trim off the excess tape.
